POLICE DEPARTMENT:

Patrol:

In addition to responding to 199 calls for service, a total of 41 officer reports were taken and there were 80 officer-initiated incidents. Officers made 11 misdemeanor and 5 felony arrests, 37 traffic stops and issued 18 citations of which 1 was a felony, 14 were misdemeanors, 0 were infractions, and 3 was parking-related during the period of April 23 through April 30, 2014.

Corning Police Department California Prescription Drug Take Back Results:

On April 27th from 10 a.m. to 2 p.m. the Corning Police Department and the Drug Enforcement Administration (DEA) held its eighth opportunity to prevent pill abuse and theft by ridding their homes of potentially dangerous expired, unused, and unwanted prescription drugs. The San Francisco Division of DEA reported a "record-breaking" collection of 40,854 pounds (20 tons in Northern California).

In Northern California we had 207 collection sites, hosted by 139 law enforcement agencies and a record-breaking collection of approximately 20 tons of unwanted, unused, and expired medications. As a bonus, this disposal collection was also converted into energy through our community partner at Covanta Energy, Crows Landing, California. The safe and secure collection and disposal of these medications not only saves lives, but protects the environment and ecosystem.

John Brewer
City Manager
City of Corning, California
794 Third Street
Corning, California 96021

Dear Mr. Brewer:

We have completed our final review of the *City of Corning All-Hazard Mitigation Plan,* officially adopted by the City of Corning on February 11, 2014 and found the plan to be in conformance with Title 44 Code of Federal Regulations (CFR) Part 201.6 *Local Mitigation Plans.*

The approval of this plan ensures the City of Corning's continued eligibility for project grants under FEMA's hazard mitigation assistance programs, including Hazard Mitigation Grant Program, Pre-Disaster Mitigation and Flood Mitigation Assistance grant programs. All requests for funding, however, will be evaluated individually according to the specific eligibility, and other requirements of the particular program under which applications are submitted. Approved mitigation plans may be eligible for points under the National Flood Insurance Program's Community Rating System (CRS). Additional information regarding the CRS can be found at *www.fema.gov/business/nfip/crs.shtm* or through your local floodplain manager.

FEMA's approval of the *City of Corning All-Hazard Mitigation Plan* is for a period of five years, effective starting the date of this letter. Prior to May 1, 2019, the City of Corning is required to review and revise its plan to reflect changes in development, progress in local mitigation efforts, and changes in priorities, and resubmit it for approval in order to continue to be eligible for mitigation project grant funding. The enclosed plan review tool provides additional recommendations to incorporate into the plan when the City of Corning undertakes its identified plan maintenance process.

If you have any questions regarding the planning or review processes, please contact Juliette Hayes, Community Planner at (510) 627-7211, or by email at juliette.hayes@fema.dhs.gov.

Sincerely,

for Patrick Ryan
